## Testimonial

"Great dedication and up-to-date insights from professors working in the fields of international cooperation, gender, education, sustainability, governance, poverty alleviation, etc. A wonderful variety and flow of topics! And it's not hard to get there from the center of Rome!!!"

(Jesse HAWKES, MESCI XXI ed., USA)

"The MESCI programme is more challenging continuation of Mundus Urbano program, but it is certainly a strong complement to my technical knowledge in architecture."

(Romina NAIDENOVA, MESCI XVI ed., Belgium)
